

## Adult Vision Coverage

kynect health coverage offers access to vision coverage through a partnership with insurance companies that offer vision benefits. Vision plan enrollments are not directly through kynect health coverage, but adults can enroll directly with one of the participating insurance companies. Individuals can enroll in vision plans any time throughout the year.

Qualified Health Plans offered through kynect health coverage do include some vision benefits for children under the age of 21. Review the QHP plan benefits to determine if additional Adult Vision Coverage is right for you and your family.

### Partnership Vision Provider Information

#### vsp individual vision plans

##### Vision Service Plan

VSP is a national not-for-profit vision care company, that was founded by a group of optometrists who wanted to provide access to affordable, high-quality eye care to the world.

With VSP, you can pick the plan that's right for you and choose your payment schedule. Plus, you can visit any VSP network doctor you like, whether it's close to home, work, or school.

As a vision care member, you will get access to personalized care from a VSP network doctor.

They'll take time to get to know you and your eyes and can even help detect early signs of serious health conditions like diabetes and high blood pressure.
