1 Document Upload Overview

The Document Upload process provides Agents with simple and guided instructions for uploading documents that may be requested to verify information during the enrollment process. During the enrollment process, many cases may have a Request for Information (RFI) to complete the application. RFIs verify a Client's information so correct eligibility may be returned and to ensure proper benefits are being applied. There are two different ways that an Agent may upload documents for their Clients and Prospects. Those methods are through Agent Portal and in kynect benefits.

1.1 Tips for Document Upload

1. Make sure the image is clear and it captures all information on the document when taking a picture for a mobile upload.
2. Files must not be password protected.
3. Image Files must not exceed 6MB and document files must not exceed 4MB. The accepted document file types include *.PDF, *.TIF, *.TIFF and the accepted image file types include *.JPEG, *.JPG, and *.PNG. Other file types are not accepted. In case the file exceeds the limit, the following options can be considered:
 - a. Use the "crop" tool to remove any remaining background or empty space around the image. This will reduce the size of the image.
 - b. Use a smaller image format. Different image formats have varying file sizes; PNG files are typically the largest and JPG files are the smallest.
 - c. To keep the size of PDF files as small as possible for faster uploading and to keep within the required size limit: After saving the completed PDF, click on File > Save As Other > Reduced Size PDF.
 - d. While scanning a paper document, choose the scanner setting of black and white (not gray scale or color) and set the resolution to 300 dpi.
4. View required documents under "Documents Needed" in the Document Center before beginning the Document Wizard.

2 Uploading a Document in Agent Portal

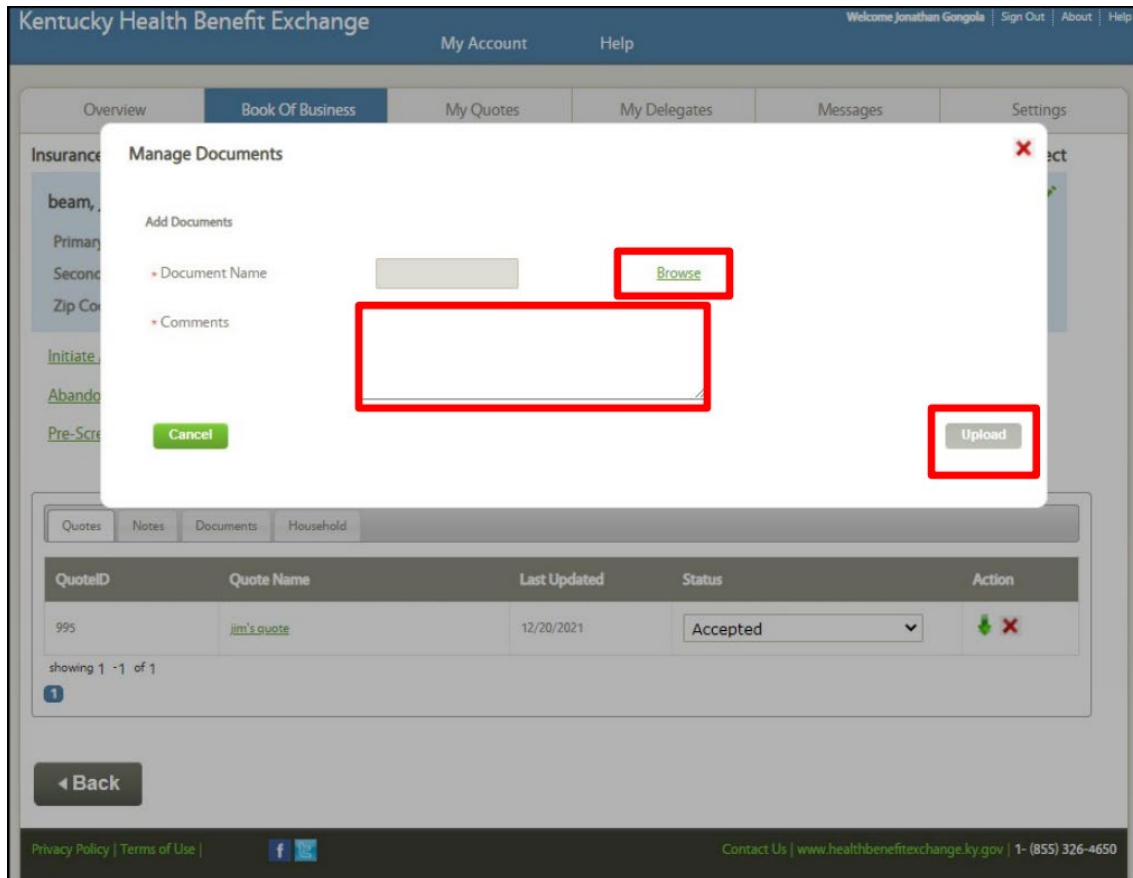

Agents may upload documents for clients and prospects on Agent Portal. Agents upload documents providing proof of information needed to apply for benefits such as income information, tax records, Social Security Number, citizenship information, etc.
