1 Report a Change and Case Maintenance in kynect benefits

The Report a Change and Case Maintenance processes in kynect benefits are designed to make updating a Resident’s case straightforward for Agents, kynectors, and Residents. Residents should report all changes in their information in a timely manner to avoid interruptions in their benefits or having to repay benefits. Use the Report a Change process to complete the three categories of change:

1. Add or Remove Household Members.
2. Modify other information such as income, expenses, resources, health, or health coverage.
3. Assist with life changes that may trigger a Special Enrollment Period (SEP).
   - A SEP is triggered once the change is entered in kynect benefits.

Please note: The Special Enrollment Period Reason Screen is triggered in the Enrollment Manager Module.

1.1 Reporting a Change: What to Know

Agents and kynectors assist Residents with making updates to their cases in kynect benefits. These updates involve Residents reporting changes to their information. Correctly navigating these changes in kynect is key to appropriately updating a Resident’s case. Agents and kynectors should be aware of the helpful Report a Change tips below.

1.2 Modifying Information

When Residents select “Modify other information such as income, expenses, resources, or health”, they are prompted to change any of the following information:

- Contact Information (Phone, Email Address)
- Relationship and Tax Filing Status
- Medicare Coverage
- Health Coverage
- Pregnancy
- Education
- Disability
- Citizenship
- Income
- Resources
- Expenses
- Living Arrangements
- Emergency Medical Condition (only prompted in kynect for non-citizens when modifying information)
- Member Information

1.3 The One Case Concept

The One Case Concept is important to keep in mind when assisting Residents. Even though Residents may have access to different programs and benefits, they essentially have one case that acts as a comprehensive profile for their personal information. Therefore, any changes
made to their information impacts all programs with which they are associated. **Be sure to make Residents aware of these impacts.** The following may change a Resident’s benefits.

### New program applications completed
Applications completed for other benefit programs may impact a Resident’s current benefits.

### Updates made to other programs
Any change made to other programs may impact the Resident’s benefits.

### Changes made to Resident’s QHP and health insurance affordability programs
Updates to a Resident’s Qualified Health Plan and/or health insurance affordability programs may impact their benefits.

### Impacts to Resident’s Benefits

#### 1.4 Request for Information (RFI)

Any changes made to a Resident’s case may generate a Request for Information (RFI) that the Resident is required to resolve. Be sure to make Residents aware of any RFI because they may directly impact their benefits.

- **Pending Questions** An RFI is an indication that important information is needed to confirm outstanding questions for a Resident’s case.

- **Make Residents Aware of a RFI** When Reporting a Change or making any updates to a Resident’s case, make them aware that a RFI may be generated.

- **RFI Impacts on Other Benefits** For example, if you report a change in address on a Resident receiving Medicaid and SNAP benefits, they will receive an RFI requesting verification for shelter and utility expenses.
  - The RFI may pend their case if they have SNAP benefits, but their Medicaid benefits would be approved.
  - The case will show pending due to the household composition RFI. When a new address is reported SNAP also re-verifies Household Composition which is a required verification and if not returned SNAP eligibility will discontinue.
2 Report a Change Navigation

The Report a Change navigation demonstration walks through how to Report a Change in kynect benefits and highlights the following kynect benefits navigation process:

1. Reporting a Change for Resident’s contact information.
2. Reporting a Change to add a Resident to a case.

The following interactive navigation demonstration will walk you through assisting the Kent family in kynect benefits.

2.1 Accessing an Individual’s Information

1. Enter the Individual’s Case Number to begin the reported change.

2. Click Search to search for the desired Individual.
3. Click the **Individual’s Name** to access their profile.

4. To Report a Change for the Individual, click **Report a Change**.

5. After clicking **Report a Change**, a prompt appears asking what type of change the Individual would like to report. Click **Modify other information such as income, expenses, resources, or health**.
6. Click **Continue**.

7. Click **Contact Information**.

8. Select the **Individual(s)** who need their contact information updated.
